

JIB ARM FOXY

2m / 6,5ft. – 5,7m / 18,5ft.
length

The Foxy Pro can be used as a Jib Arm due to various adapters. Use any dolly as base. Jib version is only for use with remote head mount.

A high payload (up to 80kg) and the max. length of 5,7m covers all your requirements on set.

With a min. length of the rear side of 65cm the Foxy Pro Jib can also be operated very easy if your space is limited.
