

# **GHOST ONE**

The Ghost One is a universal adaptable remote arm that offers arm extension from 4.2m to 6m, offeringshort mode for close-quarter dynamics and long mode for all the reach needed for stunts and big reveals. Ghost One offers dual motors per axis - power and control in any situation, offering the most advanced Gyro stabilisation of any mobile crane. The gyro motor system works in unison with the hinged tail thatflexes independently of its boom, allowing the vehicle to traverse jarring situations without transferring vibration down the arm. Powerful and durable, yet lightweight and intuitive, Ghost One is constructed from aerospace grade aluminium, carbon fibre and Kevlar.
