

## **GOLF** Cart

Electric, silent & all terrain

Electric motor DC/ Power 4 Kw

Power supply: 36V Batteries

Drive: Last

Range: 60/80 Km

Top speed: 25 Km/h

Length 225 cm

Width 110 cm

Height 115 cm

Wheelbase 165 cm

Vehicle designed to capture moving scenes in quiet locations where silence must be respected and engine pollution is not welcome.

It is ideal for working indoors (recording studios, halls, sports stadiums).

Both the front and back are outfitted with aluminum platforms (TT6 7075) to work with 48 mm tubular structure.

The Golf Cart becomes very handy working with steadycam or with many kinds of remote heads.
